SKILLS

- Languages:** C++, JavaScript, Java, Python, C, PHP
- Frontend:** HTML, CSS, Tailwind CSS, React.js, Bootstrap
- Backend:** Node.js, Express.js, REST APIs, JWT Authentication, PHP
- Tools/Platforms:** MySQL, MongoDB, Postman, Git, GitHub, Render, Vercel
- Soft Skills:** Problem-Solving, Project Management, Time Management

PROJECTS

- Payroll & Employee Management System** | Node.js, Express.js, MongoDB, React.js | [Live](#) Feb' 2026
 - Architected a **full-stack workforce and payroll management platform** using MongoDB, Express.js, React, and Node.js to streamline employee record management, attendance tracking, and automated salary computation for small businesses.
 - Designed a **responsive admin dashboard** with React and Tailwind CSS enabling efficient employee onboarding, real-time attendance monitoring, and dynamic payroll visualization.
 - Implemented **secure JWT-based authentication and RESTful APIs**, integrating MongoDB for structured storage of employee profiles, attendance logs, and payroll data while ensuring scalable and maintainable backend architecture.
- Virtu Swift – Digital Asset Management Platform** | HTML, CSS, JavaScript, PHP, MySQL | [Live](#) Jun' 2025
 - Developed a responsive web platform prototype for **digital asset organization** and content management using **HTML, CSS, JavaScript**, and **Tailwind CSS**.
 - Implemented media upload, preview, and **asset management** features with an intuitive user interface and interactive charts using **Chart.js**.
 - Integrated basic backend connectivity using **PHP** and **MySQL** for demo-level user access and data handling.
- Crop Yield Prediction – Modern Farming Solutions** | HTML, CSS, JavaScript, PHP, MySQL | [Live](#) May' 2025
 - Developed a web-based crop yield prediction platform leveraging real-time weather data to help farmers make data-driven decisions.
 - Integrated the **OpenWeatherMap API** to fetch live temperature, humidity, and rainfall data for crop analysis and forecasting.
 - Implemented user authentication and data handling using **PHP** with **MySQL**, and visualized weather–yield insights using **Chart.js** with a responsive UI built using **Tailwind CSS**.

CERTIFICATES

- Basics of Data Structures & Algorithms – LPU (CENTRE FOR PROFESSIONAL ENHANCEMENT) | [Certificate](#) Jul' 2025
- Cloud Computing – NPTEL (IIT Kharagpur, SWAYAM) | [Certificate](#) Apr' 2025
- Programming with C & CPP – INTERNSHALA | [Certificate](#) Jan' 2024

ACHIEVEMENTS

- Leetcode Achievements:** June 2025 - Present
Solved 200+ Data Structures and Algorithms problems, covering Arrays, Strings, Linked Lists, Trees, Graphs, Recursion, and Dynamic Programming
- Technical Leadership | SIDCUL CONTRACTORS AND WELFARE ASSOCIATION:** Jul' 2025
Successfully organized a large-scale technical event for **500+ industry workers** managing full end-to-end coordination and execution.

EDUCATION

Lovely Professional University Bachelor of Technology - Computer Science and Engineering; CGPA: 8.31	Punjab, India Aug 2023 - Present
Jaycees Public School Intermediate; Percentage: 75	Rudrapur, Uttarakhand Apr 2022 – Mar 2023
Jaycees Public School Matriculation; Percentage:93	Rudrapur, Uttarakhand Apr 2020 – Mar 2021
